HI DILUSSO,
START A
LUXURIOUS DAY

High-end bathroom & kitchen product brand

HI DILUSSO, START A LUXURIOUS DAY

At Dilusso, we believe that luxury is not only a style, but also an everyday experience. Every morning can be renewed with Dilusso. The bathroom is no longer just a functional space, it is the starting point for you to start a beautiful day and the prologue of every wonderful story. Hi Dilusso, Start a Luxurious Day, invites you to an elegant, comfortable and unique morning, so that every moment can show your unique taste and extraordinary style. In order to meet the user's pursuit of a perfect life.

Brand Profile

About Us

Dilusso, stands for extremely high-quality manufacturing, advanced production and innovative design. The family-owned company has won over millions of people with its quality products, becoming a driving force for developments and trends across the industry. This success story is based on the principle that change should not be seen as a constraint but as an opportunity, which has been upheld for many years.

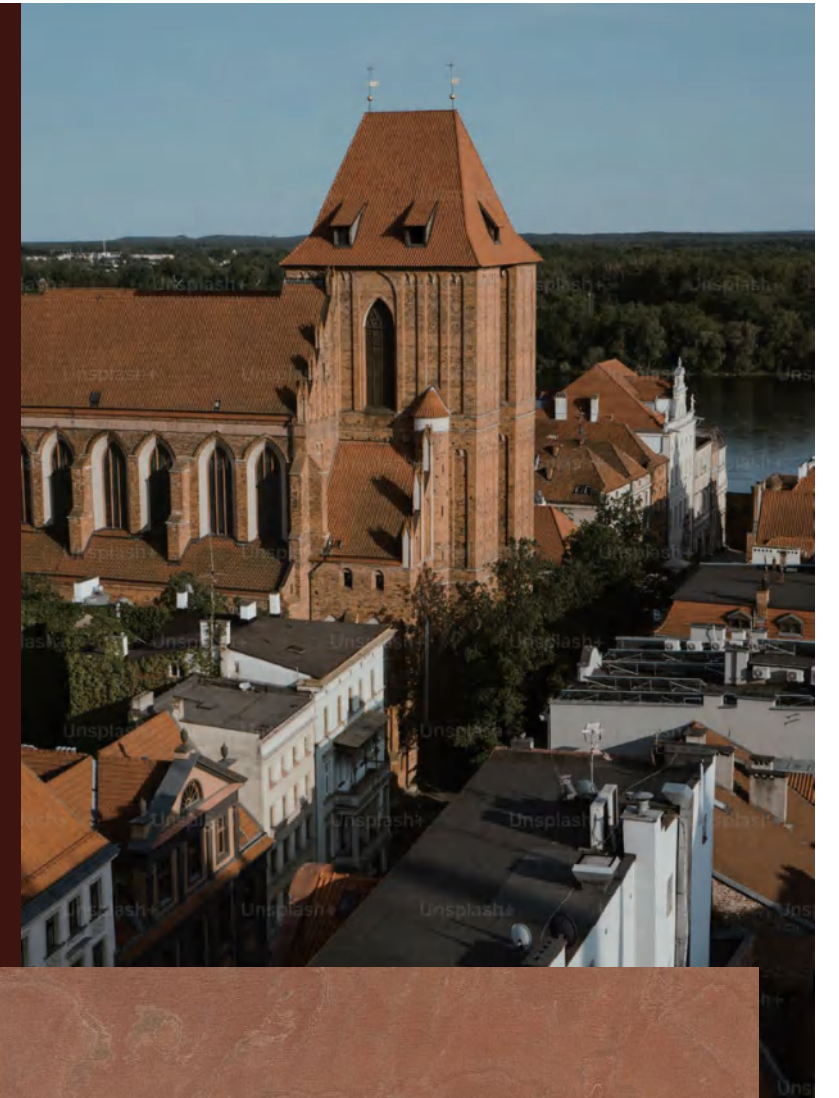

Dilusso sets high standards for design materials, fitting finishes and after-sales service. The company also ensures the quality of its customers' craftsmanship through intensive training and long-term collaboration.

As a leading manufacturer in the premium sector, Dilusso represents the ideals of reliability and value.

Dilusso also places the pursuit of premium brands in a wider context, being both a driving force and sponsor of the ongoing artistic debate on the theme of water. The company has innovative insights into bathroom and kitchen environments and has derived numerous product ideas from its collective approach. Dilusso is a symbol of intellectual and cultural inspiration that covers all aspects of delivering world-class products, and the Dilusso brand is one of them.

The Group is the undisputed market leader in bathroom accessories and has transformed the industry from pure utilitarianism to inspirational philosophy, with plans to develop into a business that offers complete bathing solutions.

Dilusso has also successfully expanded into various bathroom verticals such as taps, showers, accessories and wellness.

The technical mystery hidden behind it.

The VERNET Group benefits from its well-known brands, with sales in more than 140 countries. For almost a century, the VERNET Group has operated under its main brand VERNET, one of the leading brands in the field of thermoregulation.

Founded in 1972, VERNET Corporation designs and manufactures custom engineered solutions to meet a variety of application needs in heating, cooling and pressure control. Our custom products include thermostats, hot and cold actuators, check valves, pressure regulators and pressure reducing valves. VERNET's engineers are ISO 9001 certified and have the expertise to meet any custom design engineering needs you may need. Opened in 2006, our state-of-the-art facility is designed to ensure that VERNET can conceptualize, manufacture, and test your thermal engineering solution to meet your exact requirements.

Neoperl provides innovative solutions related to drinking water. It can help customers shape the beauty of water shapes, maintain constant water flow, regulate flow, and effectively prevent water pollution. The Neoperl Group has more than 1,900 employees in 16 countries around the world. As a global market leader, Neoperl Group is trusted by the world's top faucets, plumbing, heating, water purification and home appliance manufacturers (OEMs) and serves a wide range of global wholesale and retail trade. Neoperl products save water resources while reducing energy consumption in the production of hot water, making a great contribution to protecting the climate and environment.

Xiamen Water Nymph Sanitary Technology Co.,Ltd. which is a subsidiary of Xiamen Jandao Group, is devoted to developing multi-functional faucet parts, aim to offer more and better water experience for worldwide customers

Core products including Multi-functional Faucet aerator, Dual mode Hand sprayer, Dual mode side sprayer and shutoff, Check Valve, Flow restrictor and other value-added faucet accessories

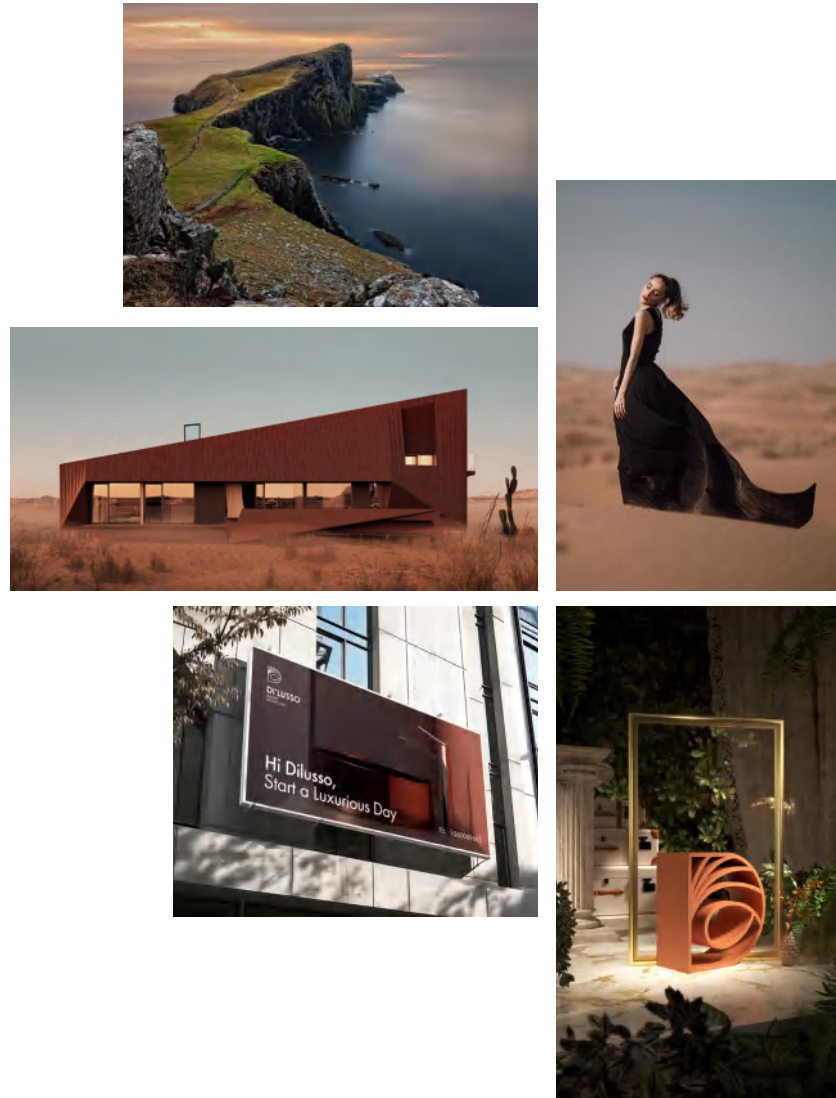

Headquarter based in Xiamen, China, our Elite and strong R&D team members work here and focus on researching and developing innovative products to meet the market requirement

In the early eighties the most important tap producers, enabled by their technical means and financial resources, started to manufacture single-lever ceramic cartridge mixers. The lack of experience with the different technologies and the new materials caused malfunctions and affected significantly the lifespan of the product. Yet the limited quantities manufactured hindered adequate investments in the research necessary to improve the overall quality of the product. On these grounds became prominent the idea that introducing a few standard models (such as 1/2 and 3/4 headworks) to be sold freely on the market could enable even smaller tap manufacturers to produce single-lever mixers. A few firms arose in Italy to pursue this objective. However their products, albeit improved in comparison to the preceding generation, still exhibited a high degree of defectiveness. In 1986 Hydroplast was founded with the purpose of overcoming the existing flaws and guarantee better qualitative standards than those available on the market. This goal was met already with the first model: higher performances, enhanced durability and full compliance to the NF regulations. Hydroplast has thenceforth become a benchmark in the industry, being able, thanks to its expertise, to design and manufacture state-of-the-art, innovative and reliable products. Swift problem solving and the capability of producing models tailored on the client's needs have also become cornerstones of the firm.

Corporate Culture Design Inspiration

THE DESIGNER

Design rejects any rules and paradigms. The essence is to constantly transcend and explore. It is not just based on a certain style, preference or prejudice, but comprehensively integrates the ideas that design wants to express. It is the core purpose and original intention of design to hope that every space created will be beautiful. It is the most important culture. It has no national borders and no borders.

Model: DS2012

- Product name: Smart toilet
- Product size: 680x420x500mm
- Heating method: momentary hot running water
- Flushing mode: Super vortex siphon suction
- Product water pressure: No water pressure limit
- Rated voltage :AC220V 50HZ

• HIGH-END CONFIGURATION FUNCTIONS

- | | |
|---------------------------|---------------------------|
| - Foot Flush | - Built-in Fragrance |
| - Automatic Lid Opening | - No Water Pressure Limit |
| - Spray Rod Sterilization | |

• BASIC FUNCTIONS

- | | |
|--|--------------------------------|
| - Ambient Light | - LED Display |
| - Flushing in Power Outage | - Water Temperature Adjustment |
| - Side Dual Buttons | - Massage Cleaning |
| - Seat Temperature Adjustment | - Automatic Flushing |
| - Seat Ring Heating | - Night Light Illumination |
| - Buttocks Cleaning | - Warm Air Drying |
| - Instant Heating and Constant Temperature | - Mobile Cleaning |
| - High Temperature Protection | - Intelligent Power Saving |
| - Seating Sensing | - Dry Burning Protection |
| - Wireless Remote Control | - Damping Slow Descent |
| - Air Temperature Adjustment | - Flame-retardant Seat Ring |
| - Spray Rod Self-cleaning | - Leakage Protection |
| - Female Cleaning | - IPX4 Waterproof |
| - Water Source Filtration | - High/Low Voltage Protection |
| - Flushing upon Leaving the Seat | |
